

100kWh lead-acid battery cabinet for oil pipeline monitoring

Overview

The 100 kilowatt hour battery is the air cooling type battery cabinet, we choose grade A battery cells of 3. With the capacity of 71, 86, 100 kWh it can seamlessly work with Autarco hybrid inverters to achieve high flexibility on the DC side. 2V 314Ah to assemble the whole battery cabinet, with a smart BMS protection board inside, support connecting to the APP to achieve real-time monitoring of the battery system. This is HT infinite power outdoor integrated Industrial & Commercial Air Cooling System 100KW-100 KWH battery storage ESS. The system is modular design and integrates energy storage batteries, PCS, power. Battery storage cabinets are essential components in modern energy systems, designed to safely house and manage energy storage units for residential, commercial, and industrial applications. This solution is completely customizable and flexible to support your application requirement.
