

# DWDM Link FMC Sub-card Module

## Overview

1 (FMC) modules provide access to up to 160 single-ended I/Os (80 LVDS) and/or up to 10 serial transceivers in a 40 x 10 configuration. The FMC modules can be plugged into both Vita57. 4 compliant FPGA carriers boards. For card safety and compliance information, refer to the Regulatory Compliance and Safety Information for Cisco ONS Platforms document. The cards. FMCs bring modularity to high performance I/O - whether you need high bandwidth ADCs and DACs for radar applications, Gigabit Ethernet for digital communications, or clock and trigger distribution for multi-board synchronization. We offer a full spectrum of products, including L3/L2 Switch, PoE Products, EN50155 and E-Mark certified switches. DWDM Mux / DeMux Card CTC Union DWDM MUX DEMUX. Know how QSFPTEK make sure your order gets to you on time. Review your item's return/exchange eligibility or warranty period. QSFPTEK is a leading high-tech company which. FMC-QSFP card provides QSFP28 and SFP+ extension of FPGA prototyping boards with standard FMC connectors.
