

# Fiber Optic Cable Network Access Certification

## Overview

Official CNCI ® Fibre Optic Cabling certification proves that an individual is certified to undertake network cable infrastructure projects to the highest caliber whilst working to the current national and international industry standards and industry best practice. Broadband Fiber Installers are expected to know the primary comprehension of Passive Optical Networks (PON) and of Optical Time Domain Reflectometer. The Certified Network Cable Installer (CNCI®) has become the industry preferred certification for network cable installation and is specified as a requirement on many job profiles and installation project contracts. In addition, manufacturers, major installation companies, associations and. Free online self-study programs on many fiber optics and cabling topics applicable to FOA certifications are available free at Fiber U, FOA's online web-based learning website. FOA Reference Books (Available Printed or eBooks) The fiber book is available in Spanish and French as well as English.
