

# Guatemala UPS Power System 20kW

## Overview

This series offers extreme high power density, delivering up to 20kW in just 2U, making it ideal for space-sensitive installations. With 7-inch touch LCD and IoT functions, users can monitor and manage the system remotely. In Guatemala, where unstable grids and rising energy costs hit businesses hard, a 20kW energy storage solution isn't just an option—it's a lifeline. Think hotels in Antigua, coffee processing plants in Huehuetenango, or clinics in Guatemala City. These users face daily challenges: Power outages. Highly efficient, easy-to-deploy 20 kW, 480 V 3-phase UPS that brings best-in-class power protection to edge, small and medium data centers, as well as to critical infrastructure in commercial and industrial applications. Compact design, high-density technology and modular architecture keep total. Anixter is your source for UPS Systems products.
