

Huawei AOC Optical Module

Overview

The Huawei SFP 10G AOC10M 02310QWH AOC Optical Module is a high performance, small form factor pluggable (SFP) transceiver designed for use in data centers and high speed networking applications. This document provides an overall description of the CE16800 series switches hardware, helping you obtain detailed information about each chassis, Power Supply System, Heat Dissipation System, card, cable, and pluggable modules for interface. It can be directly connected to an optical port on a device. S110, S220, S310, S530, and S620 Series. All items are ORIGINAL NEW and GENUINE only. Our FREE Expert Consultancy Support is over the phone, by chat, by email or by login remotely. You can contact our customer service team to exchange or return any product that you bought from us. Unel is one of the biggest Cisco&Network Hardware. Huawei AOC cable models AOC cables are high-speed active optical cables integrating optical modules and optical fibers, offering convenience and simplicity in usage, making them highly suitable for data center cabling.
