

Is there any fiber optic communication near Switzerland

Overview

Swiss4net now has at least eight local optical fibre networks (e. in Morges, Pully, Chiasso, Ascona, Baden and Wettingen). Init7 offers the fastest internet in Switzerland with up to 25,000 Mbps. This includes fibre optic from Sunrise, Swisscom or Salt. Please note that the fibre. SFN is a network consortium consisting of numerous utility providers which have constructed local fibre networks, offers service providers who do not have their own access network (e. ch, GGA Maur, Salt, Sunrise and VTX) the possibility of sourcing uniform FTTH products. With an annual investment of around 1. This will also allow the copper network to be switched off and electricity consumption to be significantly reduced.
