

# Moldova Data Center Power Distribution Box Supply

## Overview

Moldova power strips and PDU power distribution units for surface mount, rack mount and general purpose applications. B2B distributor of high-power industrial UPS solutions for the Republic of Moldova — medical, banking, data centers and green energy — with long-term regional expansion as a strategic outlook. A European vision, realised in the Republic of Moldova. We help our customers, partners and equipment manufacturers to improve energy efficiency, asset reliability, productivity, safety and performance. Quality Moldova power strips, in stock, for standard duty applications up to. In 1941, the successful revolution of data processing (DP) was started and hence the development of data centres (DaC). For the first time ever, engineer Konrad Zuse constructed an automatic computing machine - the Z3 - for the four basic arithmetic operations plus finding roots using. HEAVYCON heavy-duty connectors ensure space-saving, high-performance power transmission compared to conventional CEE plug-in devices. They also feature quick and error-free startup.
