

# Palau Fiber Optic Cable Equipment Manufacturer

## Overview

Belau Submarine Cable Corporation (BSCC) was established as a state-owned enterprise (SOE) by RPPL 9-47 (BSCC Act) on 21st September 2015, to procure, operate, and manage a submarine fiber optic cable on behalf of the Government of Palau. The PC1 cable stretches about 200km connecting Palau to a branching unit of the SEA-US cable. Palau's remote location led to a slow uptake of its information and communications technology. An AIFFP loan and grant package is enabling increased internet connectivity in Palau, with Australia, Japan and the United States supporting construction of a fibre optic submarine cable system. We're proud to support the construction of Palau's second. The public is hereby informed that the Belau Submarine Cable Corporation (the "BSCC") is soliciting for and accepting expressions of interest (EOI) from qualified firms for the role of Project Management Unit in connection with the BSCC's construction and implementation of a submarine fiber optic. How does 6W market outlook report help businesses in making decisions?

6W monitors the market across 60+ countries Globally, publishing an annual market outlook report that analyses trends, key drivers, Size, Volume, Revenue, opportunities, and market segments. This report offers comprehensive. Tokyo, January 14, 2021 - NEC Corporation (NEC; TSE: 6701) announced today the signing of a contract with the National Submarine Cable Utility Belau Submarine Cable Corporation (BSCC) of the Palau Republic (Palau) for the Palau Cable 2 (PC2) optical submarine cable construction project.
