

Swiss field spectrometer for sale

Overview

Used spectrometers for sale in Switzerland. Agilent - Keysight, Analytik Jena, and Rigaku. For more than 25 years, ASD FieldSpec, TerraSpec, and LabSpec spectrometers have set the standard for near-infrared (NIR) spectroscopy analysis in research, exploration, and industrial environments. Now part. Our overall vision is combining modern soil spectral sensing, field and laboratory probes into a cheap and efficient pocket-sized soil laboratory. With the aim to develop a global approach for identifying local solutions. At xSpectre we believe that access to real-time soil conditions is key to. Spectrometers are analytical instruments used to measure the properties of light over a specific portion of the electromagnetic spectrum. The system can analyse outcrops. Well advised with ROTH. Now part of the SciAps portable analyzers division, these gold-standard systems are backed by SciAps'.
