

# What industry is optical cable manufacturing

## Overview

The Fiber Optic Cable Production Market Report covers the \$3.8 billion industry which manufactures light-based transmission pathways for telecommunications, data networks, sensing, and specialized communication applications. Competitive structure features global connectivity corporations alongside. Based on 2025 rankings from industry sources like Owire and TSCables, the top manufacturers are evaluated on market share, innovation, and global reach. This list incorporates leading players, including Dekam-Fiber, Corning, Prysmian, and CommMesh, which stand out for their contributions to. This updated list ranks the 20 largest fiber-optic cable companies worldwide and summarizes what each vendor is best known for—core product lines, regional strengths, and typical project fit. Use it as a fast shortlist when planning new FTTH/FTTA or data-center builds. 46% annually, choosing from the best fiber optic manufacturers ensures your business infrastructure meets current demands and future scalability requirements. 98 billion in 2023 and is projected to reach USD 18.80 billion during the forecast period (2023-2032). This expansion is driven by surging demand for high-bandwidth networks, 5G.
